

## СПИСОК ВИКОРИСТАНИХ ДЖЕРЕЛ

1. OWASP API Security Project | OWASP Foundation. *OWASP Foundation, the Open Source Foundation for Application Security | OWASP Foundation.*  
URL: <https://owasp.org/www-project-api-security> (дата звернення: 10.11.2025).
2. *NIST Technical Series Publications.*  
URL: <https://nvlpubs.nist.gov/nistpubs/SpecialPublications/NIST.SP.800-57pt1r5.pdf> (дата звернення: 10.11.2025).
3. Manage API keys | Authentication | Google Cloud. *Google Cloud.*  
URL: [https://cloud.google.com/docs/authentication/api-keys#best\\_practices](https://cloud.google.com/docs/authentication/api-keys#best_practices) (дата звернення: 10.11.2025).
4. *NIST Technical Series Publications.*  
URL: <https://nvlpubs.nist.gov/nistpubs/SpecialPublications/NIST.SP.800-207.pdf> (дата звернення: 10.11.2025).
5. State of Secrets Sprawl Report 2024. *GitGuardian: Secrets Security and NHI Governance.* URL: <https://www.gitguardian.com/state-of-secrets-sprawl-report-2024> (дата звернення: 10.11.2025).
6. Bayesian Differential Privacy for Linear Dynamical Systems. *IEEE Xplore.*  
URL: <https://ieeexplore.ieee.org/document/9447811/keywords#keywords> (дата звернення: 10.11.2025).
7. RFC 9449: OAuth 2.0 Demonstrating Proof of Possession (DPoP). » *RFC Editor.*  
URL: <https://www.rfc-editor.org/rfc/rfc9449> (дата звернення: 10.11.2025).
8. Recommendation for Key Management. *NIST Technical Series Publications.*  
URL: <https://nvlpubs.nist.gov/nistpubs/SpecialPublications/NIST.SP.800-57pt1r5.pdf> (дата звернення: 10.11.2025).
9. Understand static and dynamic secrets | Vault | HashiCorp Developer. *Understand static and dynamic secrets | Vault | HashiCorp Developer.*  
URL: <https://developer.hashicorp.com/vault/tutorials/get-started/understand-static-dynamic-secrets> (дата звернення: 10.11.2025).

10. Evaluating the Performance of Novel JWT Revocation Strategy | *Acta Cybernetica. Acta Cybernetica.* URL: <https://cyber.bibl.u-szeged.hu/index.php/actcybern/article/view/4195> (дата звернення: 10.11.2025).

11. Evaluating the Performance of a Novel JWT Revocation Strategy. *Acta Cybernetica.* URL: <https://cyber.bibl.u-szeged.hu/index.php/actcybern/article/view/4195/4027> (дата звернення: 10.11.2025).

12. Performance comparison of signed algorithms on JSON Web Token. *IOPscience | Scientific, Technical & Medical Journals.* URL: <https://iopscience.iop.org/article/10.1088/1757-899X/550/1/012023> (дата звернення: 10.11.2025).

13. Schwake E. OWASP API Security Top 10 Explained - What is OWASP?. *API Security Solutions & Tools - API Protection Platform.* URL: <https://salt.security/blog/owasp-api-security-top-10-explained> (дата звернення: 10.11.2025).

14. Fast Revocation of Attribute-Based Credentials. URL: <https://cs.ru.nl/~jhh/publications/epoch-revocation-journal.pdf> (дата звернення: 10.11.2025).

15. CRSet: Private Non-Interactive Verifiable Credential Revocation. *arXiv.org.* URL: <https://arxiv.org/abs/2501.17089> (дата звернення: 10.11.2025).

16. A blockchain-based certificate revocation management. URL: <https://www.lrde.epita.fr/dload-new/papers/christian.21.cs.pdf> (дата звернення: 10.11.2025).

17. Retiring and revoking grants - AWS Key Management Service. URL: <https://docs.aws.amazon.com/kms/latest/developerguide/grant-delete.html> (дата звернення: 10.11.2025).

18. HashiCorp Vault - Secrets Management, Policy-as-Code and Data Encryption - Digital Marketplace. *Digital Marketplace.*

URL: <https://www.applytosupply.digitalmarketplace.service.gov.uk/g-cloud/services/516491187140869> (дата звернення: 10.11.2025).

19. API Security: Validating Auth and Access with Traffic Simulation Starts with Behavior | Speedscale. *Speedscale*. URL: <https://speedscale.com/blog/api-security-validating-auth-and-access-with-traffic-simulation-starts-with-behavior/> (дата звернення: 10.11.2025).

20. Distributed Caching for High-Traffic APIs | Antler Digital. *Antler Digital*. URL: <https://antler.digital/blog/distributed-caching-for-high-traffic-apis> (дата звернення: 10.11.2025).

21. What Is Reactive Programming in Java: Examples, Frameworks | SaM Solutions. *SaM Solutions*. URL: <https://sam-solutions.com/blog/java-reactive-programming/> (дата звернення: 10.11.2025).

22. What Is Reactive Programming in Java: Examples, Frameworks | SaM Solutions. *SaM Solutions*. URL: <https://sam-solutions.com/blog/java-reactive-programming/> (дата звернення: 10.11.2025).

23. Robertson B. Efficient Cloud Key Management Strategies. *Thales Cloud Security Products*. URL: <https://cpl.thalesgroup.com/blog/encryption/efficient-cloud-key-management-strategies> (дата звернення: 10.11.2025).

24. Emergency Informatics: Using Computing to Improve Disaster Management. *IEEE Xplore*. URL: <https://ieeexplore.ieee.org/document/7469999> (дата звернення: 10.11.2025).

25. GitHub - skobow/apikey-authentication-spring-boot-starter: Spring boot starter to enable easy to use and configurable API key authentication for your Spring Boot project. *GitHub*. URL: <https://github.com/skobow/apikey-authentication-spring-boot-starter> (дата звернення: 10.11.2025).

26. GitHub - 42BV/api-key-authentication: Library to easily configure API Key authentication in (parts of) your Spring Boot Application. *GitHub*. URL: <https://github.com/42BV/api-key-authentication> (дата звернення: 10.11.2025).

27. GitHub - mihirdilip/aspnetcore-authentication-apikey. *GitHub*.

URL: <https://github.com/mihirdilip/aspnetcore-authentication-apikey> (дата звернення: 10.11.2025).
